Hey Morgan,

There was no signs of fleas or rodents.

But there was other biological hazards (human feces) removed from the sidewalk. After it was removed, the area and along the rest of the sidewalk was sanitized with our sanitizing solution.

As for the sign, it was placed back on the sidewalk. I'm hoping it wasn't moved back or taken somewhere else.

Thank you.

Was the location inspected for rodents/fleas of any kind? That was the most immediate concern for our office, the school, and the businesses along the south side of Califa.

Was the sign in the middle of the street removed? That looks like it was moved from one of our local "Slow Streets." I also saw cones in the street this morning when I went to this location.

Thanks,

Hello Morgan,

Here are some photos from today's CARE team.

They were able to gain ADA compliance, detach the attachments, remove health hazards and sanitize the sidewalk with our sanitizing solution.

Let me know if you have any questions or concerns.

Hi Abraham,

Hope you're well this Tuesday!

We've received reports from the building tenants at 11446 Califa St, 91601 that there are now reports of fleas within the area. We have not received these reports previously, and would like to ensure this is handled ASAP.

We had this location schedule for CARE+ response yesterday - can you please send before/after photos? Did your teams have any issues with clean up at this location? Were there rodents/fleas present?

Best,

Hello Tiffany and Morgan:

This homeless issue is getting out of hand. At this time, we have an issue with Flea infestation which we have never had before. My tenant who is a RN, is telling me there has a plague problem with the issue of flea infestation and flea bites. We can't keep going on in this anymore. The homeless go through the trash bin and throw the trash out. Your office cannot look the other way. The problem is here. This must be taken care off. My tenants are leaving this building and there is nothing I can do. The other issue is the loud music that is being played by the Honda Dealership to push the homeless out. The homeless camp is right in front of the dealership while the dealership is next to my property. The tenants

are complaining about the loud and lousy music that is being played. Police has been called to no avail.

Please help. I am desperate.
